

"RECOGNITION IN THE
BLINK OF AN EYE"

MED VERIFY PLUS

IMPROVE HEALTH & SAFETY IN YOUR FACILITY

Med-Verify Plus™ is an integrated technology solution, designed to help Sheriffs efficiently detect and mitigate COVID-19 and other communicable diseases in jails and other secure confinement facilities. It improves the safety and health of staff, individuals in custody, visitors, and the public.

Tests	Test Results	Quarantine	COVID Outcomes	Vaccinations		
Search: <input type="text" value="Search by Name, Inmate ID, or Booking #"/> <input type="button" value="Search"/> <input type="button" value="Start Over"/>						
Test Date: <input type="text" value="Start Date"/> <input type="text" value="End Date"/>						
Mug Shot	Inmate ID	Inmate Name	Date of Birth	Test Date	Test Type	Results
	0099887766	Black, Joe	8/8/2000	3/1/2022	PCR	Negative
	012343210	Williams, Patrick	7/31/1960	3/1/2022	PCR	Positive

Encrypted data is used to capture, store, track, monitor, manage, and securely share critically needed healthcare and criminal justice information, including vaccines, testing & quarantines.

CUTTING EDGE TECHNOLOGY

HIPAA COMPLIANT

Med-Verify Plus™ is integrated with select HIPAA compliant data from the individual's healthcare record.

ALERTS

Sets ALERT flag when positive test is recorded

CUSTOMIZED REPORTS

Real-time, and dashboard reports automatically provided to command and other staff

NATIONAL DATABASE

Add-on module to the Inmate Recognition & Identification System (I.R.I.S.)™, the nation's only secure, encrypted, real-time national criminal justice network, based on iris biometric technology.

BI² Technologies is a national leader in providing biometric technology, giving sheriffs and their partner agencies the tools they need to keep their communities safe.

The Leader in Biometric Recognition Technology
