

"Identification in the Blink of an Eye"

MED VERIFY

Help Your Medical Personnel Identify Inmates in Seconds

Specifically Designed and
Engineered for Medical Personnel

BI2 Technologies can ensure your medical personnel are able to positively identify inmates prior to issuing medications or providing medical care with Med Verify™, a portable "med cart" ready addition to BI2 Technologies' IRIS™ (Inmate Recognition Identification System).

Med Verify is an Add-On Module to the Inmate Recognition & Identification System (I.R.I.S.)™, the nation's only secure, encrypted, real-time national criminal justice sharing network, based on iris biometric technology
